

Tender Notice

Project: Selva Maya Natural Resources Protection Project (BMZ/KfW/IUCN)

Basic Concepts

The SMP covers improving the management effectiveness of the Selva Maya Protected Areas (PA), its connectivity, and strengthening coordination capacity between Belize, Guatemala and Mexico for conservation and sustainable management actions of the Selva Maya.

Objectives:

General: To construct a conservation post within the Vaca Forest Reserve

Specific

- Design and accomplish with all requirements the construction of the conservation post
- Carry out the construction of the conservation post

Qualifications and Experience

Interested eligible bidders must meet the following criteria to be selected:

- Have a minimum of 10 years' experience in construction.
- Prior experience with construction of concrete and wooden buildings
- Knowledge of the area
- Equipment and expertise to carry out the works required
- Professional work crew
- Safety equipment

In undertaking this assignment, the Contractor is expected to work closely with the staff of the Forest Department.

Interested applicants can request for the complete tender document from accountingmanager@pactbelize.org
